CHARTER AND ORDINANCE
6/14/17

Members of committee present , Donahue, Ettori, Humphey, Notte. Others present were president of the BOA Sharon Davis. City attorney Matt Bloomer and representing the police Dave LaChance.

Meeting began at at 5:30 and ended at 6:10 PM.

There was discussion about the banning of parking on city streets between the edge of the road and the sidewalk. Though the Chief has broad authority in city parking issues, the Dept. is requesting additional clarification.

When this issue was first brought up I, went through the ordinances and discovered that there were no less than 16 instances where parking is addressed. I can't help but think that there must a rule that could cover this. Every one present spoke and had their questions answered by P.O. LaChance. There was some concern from the committee on how the city citizens will react to this new restrictions. In the end Bill Notte made a motion to ask City Attorney Bloomer to look at the wording and come back to us and report.

Alderman Notte: Move to request the city attorney draft a potential ordinance change to address the parking concern brought to the board by the Police Dept.with language for an overnight ban and full day ban on parking a vehicle in space between sidewalk and roadway. I so Move. Passed 4/0

The ordinance in section 5041 (15) is the location within the document.

Humbly and respectfully submitted by Gary Donahue Chairman of the Charter and Ordinance Committee.

Gary
