

Public Works Committee 5-12-15 Chair: DePoy Meeting time 5:30-6:30

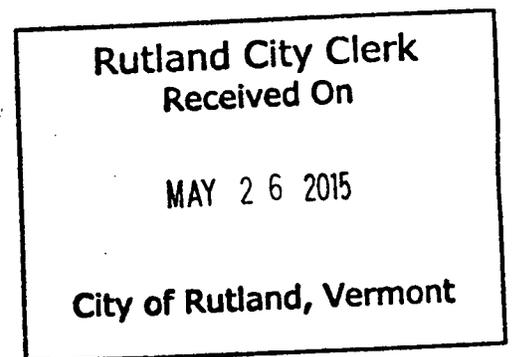

In Attendance: Ald. Larson, Siliski, Skates, DePoy

Others: Allaire, Notte, Davis

From Public works: Nate Stansberry, Jim Rotondo

Minutes: Nate Stansberry had requested a referral to committee to discuss a request to have the BOA authorize the Commissioner to enter into an agreement with The Rutland Natural Resources District for a fee of \$6,000.00 to help with creating a plan to meet the 6 minimum measures as required by the City's MS-4 permit in relation to Moon Brook. The money is requested to be paid for out of the Storm water line in the budget. The contact person at the conservation district is Nancy Maguire. After some brief discussion the motion was moved and passed on a 4-0 vote.

The committee also met with Mike Coppinger of the Rutland Downtown Partnership. We met to discuss some potential upgrades to the Justice Sq. area and also to adjacent Cottage St. After looking at some conceptual pictures and some brainstorming about how we could improve the area, the committee asked for some more ideas and some engineering concepts from the Department as to how we can proceed with improving that area of the city. The issue will stay in committee and await some ideas from the department as to how to proceed with improvements. This is FYI.
