

BOARD OF HIGHWAY
WEDNESDAY, JULY 8, 2015

Present: Mayor Louras, President Notte, Commissioner Wennberg, and Purchasing Agent Magro.

The meeting was called to order at 2:25 pm.

Commissioner Wennberg updated the Board of Highway Commissioners on the Dorr Drive Bridge. He stated he had a request from the State with two questions. One being when will the bid go out for the widening of Dorr Drive and secondly, when will the Planning Commission look at the draft for Complete Streets. The City currently has a bid in place for the reclaiming and paving with the existing width. A bid would have to go out for the widening of the road. Mayor Louras noted taking safety functions into account when considering how much to widen the road by. Commissioner Wennberg stated the bids should go out within the next couple of weeks with a decision by the end of August with paving to be completed before the plant closes in November.

With regards to the Complete Streets plan, City Engineers will develop a draft after the construction season to be ready by mid-winter.

Commissioner Wennberg stated a decision by the City would have to be made with regard to lighting on Dorr Drive Bridge whether to go with the conventional lighting or a modification to allow for solar lighting.

This was for information only and no action was taken.

Meeting adjourned at 2:45pm.

Respectively submitted,
Sara Magro
