Complete Streets

PG asked if the letter regarding general comments that Tara volunteered to write on behalf of the PC had been sent. It was suggested that the PC comments regarding the design stage and notification to the PC be re-forwarded to Tara and confirm their inclusion.

SS said that the DPW is aware the comments will be sent by the end of the month. SS consolidated all of the comments into the master copy to give to the DPW. She distributed a copy of a draft letter to accompany the master copy that includes DC and LW's comments.

In reviewing the draft letter it was determined to remove the first bullet as a policy statement to the Complete Streets Plan. Reality dictates that riders will use the sidewalks.
